

Download AutoCoach. Upload Safety.

Shepherd Center, in partnership with the Georgia Governor's Office of Highway Safety, has developed the first mobile app developed by certified driver rehabilitation specialists for parents to teach their teens to drive safely.

The app includes features that heavily support modeling safe driving behaviors for your teen.

Studies have shown that one of the most protective factors against teenage injuries and fatalities due to car crashes are parents who model, monitor, and enforce safe driving practices.

AutoCoach

Learning to drive **together.**

Why You Need AutoCoach

- Takes the anxiety and guesswork out of how to effectively teach your teen to drive
- Allows parents to monitor supervised driving time
- Reduces risky driving behaviors by both parents and teens
- Equips parents to teach teens to drive and keeps parents involved in the process
