

Empower Your Health Journey with MyChart

In our continuous effort to provide you with the best healthcare experience, we are excited to offer you MyChart, your personal health companion.

This innovative platform offers a comprehensive view of your health records at the touch of your fingertips, ensuring your medical information is accessible whenever you need it.

MyChart is Designed for Everyone.

If you're 13 or older, you can have your own MyChart account. For our younger patients and for those who need it, we offer the option of having an adult serve as a healthcare proxy.

We also support adult-to-adult proxy arrangements for added flexibility.

How to Access MyChart:

If you're already a part of the Piedmont Healthcare family, you can seamlessly access our MyChart with your existing login credentials via mychart.shepherd.org or by adding Shepherd Center to the organizations in the mobile app.

New to MyChart? Getting started is easy. An activation code from your healthcare team is your key to unlocking all the benefits of MyChart. Contact **Shepherd Center's MyChart Support Team** at **404-425-7250** to leave a message or email **MyChartSupport@shepherd.org** to request your code, or for any assistance in signing up or accessing your account.

Take the first step towards a more empowered and informed health journey. Access MyChart today and experience the difference.

Why MyChart? Your Health Simplified.

Centralized Health Information:

Access your medical records, test results, notes, and history all in one secure place.

NEW - Appointment Scheduling Made Easy:

Make some outpatient appointments at your convenience as ordered by your physician, NP, or PA through MyChart and complete pre-visit tasks from home. *Be notified if or when earlier appointment times become available.*

Direct Communication with Your Care Team:

Send and reply to messages from your health care teams via MyChart at any time of day, making it easier to get the answers you need. *Responses will occur during normal business hours.*

Medication Management:

View your current prescriptions, request refills, and manage your medications without the hassle of making phone calls.

Health Reminders:

See your upcoming appointments, tests and procedures to plan your care.

Share Your Medical Record:

Share your healthcare data with healthcare professionals and request formal copies of your records.

Secure and Confidential:

Your health information and privacy are our top priorities. MyChart uses state-of-the-art security measures to protect your health data.
